About Me

My name is Sophia Politis. I live with my big, fat Greek family! I graduated from Cleveland State University and recently went back to get my graphic design certification. I've always enjoyed art and love creating anything and everything. For me, art is all about having fun with your creativity. It's amazing how simply playing around with colors and shapes can be so satisfying and relaxing. I look forward to working on many fun projects with your children. I can't wait to see their creativity come to life as we explore new artistic ideas together and have a blast!
